

# W O R R Y - F R E E **POOL** *Maintenance*

## **POOL OWNERSHIP, WITHOUT THE HASSLE**

Swim Gem offers consistent, preventative pool care designed to keep your water clean, balanced, and problem-free throughout the season. With over 40 years of experience, our team focuses on preventative care, reliable scheduling, and clear communication — so you spend more time enjoying your pool and less time managing it.

## **WHAT IT INCLUDES**

- Spring pool opening
- Scheduled maintenance visits
- Professional water testing and balancing
- Vacuuming, brushing, and skimming
- Filter backwashing / cleaning
- Skimmer basket and automatic cleaner checks
- Digital service reports after each visit
- Fall pool closing

## MAINTENANCE PROGRAM DETAILS

### Why Weekly Maintenance Is Recommended

Weekly service provides the most consistent water chemistry, minimizes algae risk, and helps prevent costly corrective cleanups. Regular weekly visits allow technicians to make small, preventative adjustments before problems develop.

### Diamond Weekly Maintenance

**Recommended for most pools — Starts at \$3,775**

Includes spring opening and fall closing, 15 weekly maintenance visits, one winter maintenance visit, and all required service chemicals (excluding pool salt). Weekly service offers the lowest long-term cost and most predictable results.

### Sapphire Bi-Weekly Maintenance

**For hands-on pool owners — Starts at \$2,600**

Bi-weekly service is a collaborative program. Customers are responsible for cleaning and balancing the pool during off-weeks. Swim Gem provides chemicals only during scheduled service visits, limited to chlorine, shock, and preventative algicide. Pools requiring excessive cleanup due to off-week neglect may incur additional charges or require conversion to weekly service.

### Weekly vs. Bi-Weekly Maintenance

	Weekly Maintenance	Bi-Weekly Maintenance
Water Consistency	Most consistent water quality	Greater variability between visits
Algae Risk	Lowest overall risk	Higher risk between visits
Chemical Coverage	All service chemicals included*	Limited chemicals during service weeks
Owner Involvement	Minimal	Required between visits
Corrective Cleanups	Rare	May result in added charges

\*Weekly Maintenance includes required service chemicals excluding pool salt.
